Congratulations on your new JACOB JENSEN™ Telephone HT60.

The telephone is designed in Denmark by Jacob Jensen, whose products have gained international recognition for their original, simple and classic design. Jacob Jensen has received about 100 prizes from around the world and has 19 products included in The Design Study Collection and The Design Collection of The Museum of Modern Art in New York.

Telephone HT60 is a FSK/DTMF caller ID telephone. In order to activate this feature, please contact your telecoms service provider. Please read this guide before use and keep it handy for future reference.

## A. INSTALLATION

### A.1. Base installation – table stand

Disassembly:

### A.2. Faceplate installation

## B. HOW TO USE THE TELEPHONE

### Receiving a call

Pick up the handset or press .

### Making a call

Pick up the handset or press  – then dial the telephone number.

### Adjust speaker and handset volume

Press the volume buttons   to lower or increase the volume of speaker and handset. When you hang up, the volume of the handset will return to low level and the speaker volume will keep the current level.

### Handset and speaker phone mode exchangeable

1. From handset to speaker phone: Just press  and put the handset back to the cradle.
2. From speaker phone to handset : Just lift the handset.

### To redial the last number dialed

Press  to dial the last number dialed. After five minutes the number will disappear automatically.

## Mute Function

During the call, press **MUTE** once to stop the transmission for handset and speaker – the mute LED will light up. Press **MUTE** again to resume the call – the mute LED will turn off.

## Service buttons and MWI

1. To programme the service buttons or MWI: In on-hook mode, press **PROG** + programming number + **PROG** + Service button. If you need, you can insert **FLASH** or **R** button.  
In on-hook mode, press the relevant service button to see the programmed number.
2. In on-hook mode: Pick up the handset or press **▪**, then press the certain Service button, the programmed number will be dialled automatically.
3. To delete the programmed number: In on-hook mode, Press **PROG** + **PROG** + Service button or MWI. If you need, you can insert **FLASH** or **R**.

## Set room number

In off-hook mode, press **PROG** + room number + **PROG** + **▲** or **▼**. The room number will appear in the left side of the display.

In off-hook mode, pressing **✖**13 **✖**0987654321 **#** will delete all programmed numbers and the room number.

## Caller ID

When receiving caller ID information the telephone can recognize the format FSK & DTMF. This information will be stored automatically. If you need to change the format, you have to disconnect and re-power again.

The caller ID number will disappear within 30 seconds in order to protect guest's privacy. There are indicators for New call, Repeat call, Secret call, Message and so on. It can store 48 incoming calls. The displayed number is up to 16 digits.

If the format is FSK, the date and time will be auto updated. In DTMF mode, all settings won't be changed. Furthermore, the DTMF signal only includes incoming phone calls and doesn't include date and time.

## Setting Date and Time

In on-hook mode: Press **✖** 11 **✖** MMDDHHmm **#**.  
MM: month (01-12)  
DD: date (01-31)  
HH: hour (00-23)  
mm: minutes (00-59)

## Message Waiting Indicator (MWI)

It is compatible with high voltage neon/90V and Lucent low voltage system. Other MWI signalling systems must be confirmed by the factory and implemented in production. The MWI will flash if there is a message. Pick up the handset or press the speaker **▪**, then press the MWI to retrieve the message.

The MWI is also a ringing indicator, which will flash if there is a call or a message.

## Busy tone disconnect automatically

If the handset is not placed on the cradle after a phone call, the telephone can automatically switch to on-hook mode and the line will connect accordingly.

## Data port

The data port can be used to connect computer, fax, extension, etc.

## Programming the service buttons by Cloner

1. Enter actively Remote Programming Status : Off hook status, press **✖** for 5s of the base, the phone will send 3 dialing tones and the mute indicator flashes 3 times.
2. Escape actively Remote Programming Status: Off hook status, press **#** for 5s of the base, the phone will send 3 dialing tones and the mute indicator flashes 3 times

## Note:

- The phone will automatically escape the remote programming status if the phone is successfully programmed.
- Pressing the Volume button or back to on-hook status can stop the programming work.

### C. INSTALLATION ATTENTION & MAINTENANCE

The phone has been manufactured using the very latest technology and the highest quality components and workmanship, under ISO9001 quality control procedures. It can be relied on to provide many years of trouble-free service, especially if these simple tips are followed:

- Handle with care, avoiding hard knocks and shocks.
- Do not expose this product to dust, strong sunlight, humidity, high temperature, or mechanical shock.
- Do not use corrosive or abrasive cleansers on this product. Keep the unit dust free by wiping it with a soft, dry cloth.
- Do not tamper with or attempt to modify the phone, it would make it unsafe to use. Should any service difficulties or faults be encountered, the following list may help you identify and remedy problems. In many cases, however, it may be necessary to call the distributor from whom you purchased it.
